BURLINGTON, ON — November 2020 — Pegmatis, an elite design center, is excited to announce that we have received a 2020 Mexico Technology Award in the category of Design Services for the *Sun to Water LLC Atmospheric Water Generator*. The award was announced during a Virtual Awards Ceremony on Wednesday, Oct. 21, 2020. This is our second award for the Sun to Water machine.

Turning Air into Water

Pegmatis has pioneered a technology that will allow Sun to Water machines to pull potable water from the air even under adverse atmospheric conditions.

Pegmatis contributed hardware and software design to the project.

The team focused its hardware design on developing a robust system that will deliver water reliably and safely to the consumer.

The software team designed and developed complex algorithms to build water generation efficiency while considering software security, connectivity, reliability, and ease of use and service.

A solution provider, Pegmatis, manages every aspect of design and development from concept through manufacturing and ensures that projects meet the technical specifications and align with their clients' strategic objectives and timelines. A true *one-stop-shop*, the company specializes in challenging, complex projects and emerging technologies.

Supported by an incredible team with more than 300 years of collective hardware and software experience, and a bench that has worked as a team for decades, Pegmatis offers world-class product design, development, and consulting.

FURTHER INFORMATION

The Awards

The Mexico Technology Awards acknowledge the latest innovations available in Mexico produced by OEM manufacturing equipment and materials suppliers during the last 12 months. For more information, visit www.mexicoems.com/mta-awards.

Pegmatis, Inc.

Pegmatis capitalizes on experience and technology to build a better future. For more information, visit www.pegmatis.com.

Sun to Water, LLC

Generating up to 8 gallons of fresh, pure drinking water per day from air, the SunToWater Atmospheric Water Generator is making home atmospheric water generation secure, safe and sustainable. See www.suntowater.com/.

About Pegmatis

Pegmatis began as a Fortune 500 company's elite design center working with its top-tier customers from design ideation, cost-driven design architecture up to launching scores of high-volume products into the market. Chances are you have used or worked with a product that we have designed. We have developed high-tech products like mobile smartphones and connected streaming devices to ultra-high-end audio and medical products. As of 2016, Pegmatis has been operating under its own banner and has continued to provide high fidelity design and manufacturing services to customers, leveraging our mass production network. Same Dream Team, but add an elite software team, and you have Pegmatis. Truly a complete end-to-end design partner in hardware, software, or both.
